

"A FREE educational workshop to raise your Legacy IQ"

Legal advice always seems to be full of complicated materials and usually comes with a high price tag. In addition, many people dread the thought of planning their estate because of the doom and gloom that is associated with the topic.

However, at Axis Estate Planning & Trusts, our goal is to help you **Celebrate** your life and your achievements. Through a consultative process we will show you all of your assets and achievements that need legal protection, which you may be humbly overlooking.

Axis Estate Planning & Trust has made the process easy, positive and even fun for you. And we would like to extend a sincere invitation to attend our free informative seminar on the reasons for creating an estate plan and how we can help to ensure your hard work is appreciated and the legacy of your life is left for your loved ones.

Our goal is to provide our services to the middle class families that have worked hard to achieve their assets and deserve to bring prosperity to their families and loved ones instead of paying taxes and probate fees.

Our philosophy is that true legal advice should be given through education, clear communication and common sense.

During our **FREE** educational workshops, there will be NO sales pitch, NO scare tactics, and NO song and dance. Instead, we will provide you with the information to raise your Legacy IQ by revealing and defining these central Estate Planning topics:

- 1. The myths about wills, estates, and probate!**
- 2. What is an estate!**
- 3. Who needs estate Planning and why!**
- 4. How do the super wealthy keep their wealth!**
- 5. The ABC's of solid estate planning!**

Our workshops are designed for individuals who want to take control of their finances even after they are gone. Stop funding the IRS and the probate system and BRIDGE THE GAP to your Legacy.

*To register for our next **FREE Estate Planning and Trust** education workshop

please call: **866-432-3811 extension. 1010**

or email: **workshops@axis-trust.com**
